PRINCIPAL'S MESSAGE

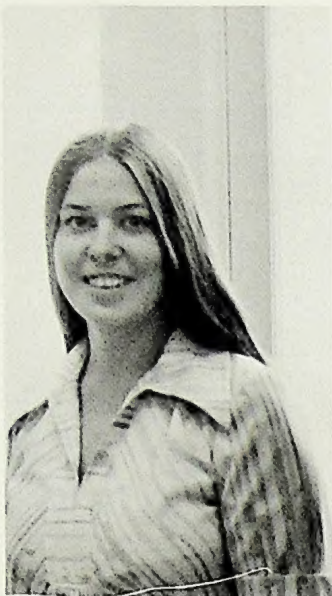

A school year book can serve as a meaningful summary of the life of a school during a specific year. In the future past editions will serve as reminders of friendships, events and experiences that have had a part in making us what we are. In this sense an annual year book becomes a link in the chain of the school's progress and serves to bind generations through relatively common experiences. All the good and bad times will become part of your memories, but you must all look to the future for new challenges and new horizons.

Our appreciation and sincere thanks to all those who have so generously contributed of their time and effort to make the 1975-76 year-book a success.

Finally my best wishes to all for a very enjoyable summer.

E. P. Wynychuk
